

Save the Date: Start Growing Your Hair!

I am Katie Ridder, a 7th grade student at Valley Forge Middle School, and I am organizing a Locks of Love hair drive within our school district. Locks of Love is a nonprofit organization that makes custom wigs, from real hair, for financially disadvantaged children who have long-term medical hair loss. I am running this hair drive for my Girl Scout Silver Award because, like Locks of Love, I believe that no child should have to feel self-conscious about losing their hair. While the drive won't take place until March 2016 (more details to follow), I'm letting people know to start growing their hair out now so they can plan to participate, as the minimum hair donation is 10 inches. If you have any immediate questions or would like to participate in the drive please contact me at LOLhairdrive@gmail.com. Thanks for your support and consideration!
